SOLUTIONS FOR A SAFER, HEALTHIER WORLD

MRIGlobal In Vitro Diagnostics Solutions

Your trusted partner for contract research since 1944

MRIGlobal solves technological challenges facing government and industry, applying scientific expertise to the full spectrum of research and development. As an independent, not-for-profit institute, we deliver innovative thinking and unbiased results to our clients.

Applications:
- Sample Preparation and Processing
- Nucleic Acid Isolation and Amplification
- Immunological Assays
- Microbiology
- Next Generation Sequencing and Bioinformatics

Advantages:
- A Culture of Trust & Integrity
- Dedicated Project Teams
- Technology Agnostic
- CAP-Accredited CLIA Laboratory
- BSL-3 Laboratories for Infectious Disease & Select Agents
- Highly Secure Facilities and Environment
- 60+ Dedicated Scientists, Engineers, & Program Managers

Quality Assurance:
- ISO 9001, ISO 17025
- GLP & cGMP
- CAP-Accredited CLIA Laboratory
- Successful Audit History with FDA, CAP, ISO, CDC, & USDA

Ebola sample inactivation training inside the mobile diagnostic laboratory at Ratoma, Guinea.
Global Health Security Solutions for Infectious Disease Detection, Diagnostics, and Medical Countermeasures

- Biocontainment Lab Operations and Support
- Assay Design, Development, and Validation
- Rapid Engineering and Device Prototyping
- Global Partnership Engagement
- Medical Countermeasures
- Pre/Nonclinical Studies Requiring High Containment

MRIGlobal is dynamic, nimble, and able to respond quickly to rapidly changing global health challenges. In time of crisis, MRIGlobal reliably mitigates delays and specific challenges that arise from global operations.

Trainee preparing to exit the sample inactivation/extraction unit of the mobile diagnostic laboratory at Conakry, Guinea. MRIGlobal continues to support training and sustainment of these laboratories as contracted by the USG.
