

Innovative Solutions to  
Important Challenges

APPLIED SCIENTIFIC  
AND ENGINEERING RESEARCH

## IMPROVING PEOPLE'S LIVES THROUGH INNOVATIVE SCIENTIFIC AND ENGINEERING RESEARCH

### RESEARCH AND DEVELOPMENT

MRIGlobal performs applied scientific and engineering research on behalf of clients in government, industry, and academia. Through our interdisciplinary teams and world-class laboratories, we deliver innovative, customized solutions that meet your precise research needs.

### TEST AND EVALUATION

MRIGlobal delivers independent, third-party test and evaluation services, providing independent evaluations of technology, products, and protocols. Over the years, we have tested and evaluated hundreds of government and commercial client-provided products for chemical characterization including identity and impurity profiles. We also provide test and evaluation services to accelerate development and commercialization of new and disruptive infectious disease diagnostics, medical countermeasures, and vaccines, while supporting their clearance through FDA and other regulatory bodies.

### MANAGEMENT AND OPERATIONS

MRIGlobal has built a strong reputation of excellence in management and operations of laboratories, facilities, and test capabilities based on sound research, development, demonstration and deployment, as well as an exemplary record in safety and quality performance.

## PARTNERING TO SOLVE COMPLEX CHALLENGES

Working in Global Health Surveillance and Disease Diagnostics, Security and Defense, and Pharmaceutical Sciences, MRIGlobal takes on difficult scientific and engineering challenges, providing personalized service that larger contract research organizations can't offer. We are recognized internationally for our diverse and cutting-edge technical capabilities and our unrelenting commitment to high quality, responsiveness, and collaboration.

## CAPABILITIES

- Counter Weapons of Mass Destruction
- Infectious Disease and Biological Threat Agent Detection
- Vaccines and Therapeutics
- *In Vitro* Diagnostics
- Global Biological Engagement
- Clinical Research Support
- Biomedical Monitoring
- Management and Operations

## ABOUT MRIGLOBAL

Founded in 1943, MRIGlobal is an internationally recognized independent organization performing customized contract scientific and engineering research, as well as management and operations, for government and industry. With a focus on improving people's lives, MRIGlobal delivers innovative solutions with an unrelenting commitment to customized research, collaboration, and high-quality results.

www.MRIGlobal.org • (816) 753-7600  
425 Dr Martin Luther King Jr Blvd  
Kansas City, MO 64110

For nearly 80 years, MRI Global's has worked across interdisciplinary teams to perform customized scientific and engineering research, delivering high quality results to improve people's lives around the world.

**HEALTH, SURVEILLANCE  
& DIAGNOSTICS**

- Biodefense & Biosurveillance
- Biosafety Consulting
- Integrated Device Development
- Method Development
- Analytical Testing
- Clinical Trial Support
- Companion Diagnostics
- Bioinformatics

**PHARMA SCIENCE**

- Repository
- Formulation
- Biologics
- Manufacturing
- Analytical Chemistry
- Environmental Impact to Health
- Agriculture

**DEFENSE SOLUTIONS**

- Integrated Defense Solutions
- Product Development & Integration
- Expeditionary Forensics
- Training & Simulation
- Defense Disruption
- Prime Integrator
